Center Mumbai

SSAB

World-class 100,000 sq ft
processing & warehouse facility

Driving strength and efficiency in Indian manufacturing

The SSAB Steel Service Centre in Mumbai delivers precision engineered parts, kits, and components made from Hardox® wear plate and Strenx® performance steel. These world class steels set new standards in durability and strength, supporting India's transportation, construction, and lifting sectors.

With ready to assemble kits, specialised processing, and technical expertise, SSAB helps manufacturers boost productivity and performance. Strategically positioned in Mumbai, the centre simplifies manufacturing and empowers customers to deliver high performance equipment.

Unlock greater efficiency, reduced fabrication time, and enhanced productivity— right here in Navi Mumbai.

Applications that drive industry forward

Our specialised steels support a wide range of transport and lifting equipment, including.

- Rock body tippers & light-weight on-road tippers – built lighter yet tougher for extended service life.
- Tipping trailers – precision cut for efficiency and reliability.
- Heavy-duty dump body parts & liner kits.
- Lifting booms – combining strength and reduced weight for enhanced performance.

Advanced processing capabilities

At SSAB Steel Service Center Mumbai we specialize in the bending of high strength steel plates and enable innovative designs for transportation and lifting segments and other advanced equipment solutions. This capability ensures manufacturers meet modern demands for efficiency, safety, and sustainability without compromising strength.

Your partner in steel innovation

- Faster production with ready to assemble kits
- Reduced fabrication costs through precision processing
- Enhanced equipment performance with advanced steels
- Innovative design & technical support for complex bending requirements

Heavy-duty accupress bending machine

Max press brake: 1,600 tonnes
Bending length: 13,000 mm

Penta optical fiber laser cutting machine

Laser power up to: 20 kW
Table size: 16,000 mm x 4,000 mm
Cutting up to: 30 mm & beveling up to 45°

Our brands

SSAB is a global leader in premium steels, shaping a stronger, lighter, and more sustainable world. With high-strength and advanced steels, pioneering decarbonized offerings, and value-add services, we deliver unique customer value and accelerate customer competitiveness worldwide. A steelmaker since 1878, our teams in more than 50 countries set the standard for industry-leading performance. SSAB operates steel mills in Sweden, Finland, and the United States and is leading the transformation of the industry – dramatically reducing emissions from our own production. SSAB shares are listed on Nasdaq Stockholm, with a secondary listing on Nasdaq Helsinki. www.ssab.com.
